Dear Vince Scheerer:

Thank you for the updates to NRC's oil spill contingency plan submitted on March 25, 2026.

Changes to NRC's plan include:

- Updates to WDFW's contact from Lynne Barre to Hannah Miller
- Updates to multiple SMT positions
- Updates to dispersant type from Nalco Corexit 9500A to Accell Clean DWD 2.0
- New agreement with Towline Marine Assist, LLC for VOO program
- Updates to the Internal Notifications table within the IC checklist to reflect changes in personnel
- Updates to the contact for PRC notification from Ryan McCoy to Crescent Moegling

I added these revisions to the paper and electronic copies of the oil spill contingency plan residing at the Department of Ecology.

If you have any questions on this matter, please contact Chelsea Krimme at 360-742-7730 or Chelsea.Krimme@ecy.wa.gov. Thank you for keeping your plan updated with the most current information. As always, we appreciate your partnership in protecting Washington's environment.

Sincerely,

Chelsea Krimme
